

BRACELET / WRIST MEASUREMENT INSTRUCTIONS

YOU WILL NEED

1. CLEAR TAPE
2. PEN
3. RULER

STEP 1: Tear off a piece of tape that is longer than the circumference of your wrist.

STEP 2: Place one end of the tape in the middle of your wrist. Be sure that it is at a position on your wrist where you would wear a bracelet.

STEP 3: Wrap the piece of tape around your wrist so that it is snug, but not too tight.

STEP 4: Draw a line on the tape at the place where it begins to overlap.

STEP 5: Remove the tape and lay it on a flat surface.

STEP 6: Measure the length of tape from the end that was initially placed on your wrist to the line drawn with the pen. This is the length of your wrist!

BRACELET SIZE GUIDE:

Measurements are based on the length of your wrist.

WRIST LENGTH	BRACELET SIZE
14,5 cm and below	XS
14,5-16 cm	S
16-17,5 cm	M
17,5-19 cm	L
19 cm and above	XL
